My Dear Sam

I rec'd yr deleg. yesterday morn'g & missed you
in reply - yes - (as proposed in letter of 12th)
and ref'd you to my letter of 23rd mailed 24th. I think
I had not time to write yesterday as we ^{had} a cleanup
board meeting preparatory to my going west and
was preparing for our Thanksgiving assembly here,
and had to come out early to take dinner with
the Smiths. I have been the good-luck round &
we have had a very pleasant day here. Joe and
family and Ed. and family having just left in
the Pacific however which commenced at noon.

Ed and Edith could not come and in addition
to regrets at their absence, many times wishes
were expressed that you could have been here
also John, but all feel that you are in a more
isolated and inconvenient place than he is. I
hope you had some comfortable enjoyment of the
day and that you and Geo. & Setlake are both
in improved condition. Make my kind regards
to him. Your account of his throat was dis-
concerting but I hope "Eagle" referred to had the matter well in hand.

As I expect to leave on 1st Dec. I shall have
no chance to do anything about Green Mountain
and have not yet mentioned the matter to any
one as I understood something in the way
of description and proposition was to come
from C. through you before I used it.

In thinking over the financial demands of
the Jamaica as indicated in your letter
of 12th it looks as though I should have to let
my interest in Carownpool go before we are
in the position at which we are aiming and
it has occurred to me that if C. makes his
force of his interest in his side of the pool
I should like to know his lowest figure with-
out his knowing that I had changed my po-
sition as to my indisposition to purchase it.
Considering how it is ^{paid and will get} ~~burdened~~ ^{burdened}
much, and I might see my way dear to give
him something for it and in that case I would
stand apart to get rid of it. Too, but I
would rather keep it in with us. Perhaps
you will have an opportunity to get an idea
from C. of what he would sell for, if he could get
by the time I see you.

I have to go to New York this week and
Atlantic City - on that Water Co. business.
All here today joined in a quest that I
should send their love, and regret that you
could not be with us. I have to move now as Logg
is getting settled in the table where I am going
a dim light - Ever aff. father W. J. Cheyne
